

So Quiet, You'll Forget It's There.

Prodigy® Eclipse® Cube Ice Machines

With innovative patented technology, Scotsman has produced a smarter ice machine that is more reliable, smaller, easy-to-use, and so quiet that the only noise you'll hear is the sound of perfectly chilled drinks being served. Compressor and condenser on the roof, moving noise and heat away from customers and workers for an all-around quieter environment. It can be used at a drive-through window, a self-serve beverage station, or anywhere you need a high-capacity ice source that won't interfere with its surroundings.

Simplified Operation and Lowers Installation Costs

- Unique point-of-use flexibility: small footprint and ability to fit snugly against a wall
- Compatible with a variety of dispensers and bins: widths of 22" and 30"
- Unique two-piece modular construction
- Compressor unit and remote condenser can be placed separately
- Quick-connects: eliminate time-consuming braising and the risk of contaminating the refrigerant lines

Maximized Cleaning Access and Service Ease

- Clear access to the front of the dispenser: cleaning easier, faster, and more thorough
- Front and left side access to the interior: ensures proper cleaning and sanitation even in the tightest installations and under the harshest water conditions
- Balance of the refrigeration system outside: service can be completed without interrupting employees or customers

**Warranty: 3 years parts and labor | 5 years parts and labor on evaporator
5 years parts on compressor and condenser**

EH430

Maximized Reliability

- Compressor always operates within the manufacturer's recommended operational envelope
- Reduced stress on the compressor: operating life extended

EH222

700 - 1,035 lb/24hrs

EH430

1,520 - 1,884 lb/24hrs

Smart Trend Tip

Consumption of soft drinks at breakfast consumed outside the home has nearly doubled in the past 15 years (Seattle Times, 1-14-07). Promoting soda in the morning could start your day off with a bottom-line boost.
